

Installing Your WordPress Design

Step 1 – Go to your log-in address. This will be <http://YOURSITE.com/wp-admin/>. Remember that if you add **wp-admin/** to the end of your domain, you will arrive at the WordPress log-in page. Log into your site with your Username and Password, as shown below.

Step 2 – After logging in, you will be at the Dashboard. On the Dashboard, click on Appearance, as shown below.

CONTINUED ON NEXT PAGE

Step 3 – Click on Install Themes on the next page you see, as shown below. Then choose Upload on the next screen.

Step 4 – Find your zipped folder containing your theme that I emailed to you using the Browse function. You may preview before installing. Click on Install Now, as shown below. Click on Activate. Your done!
